

Blindfaith Retrievers' Limited Health Guarantee

This Guarantee is conditional upon the dog being registered with the American Kennel Club within 120 days of the purchase date. This guarantee applies only to the original purchaser of the puppy and is non-transferable to any other person or persons.

If the dog is diagnosed by the Orthopedic Foundation for Animals** with hip dysplasia (any rating of mildly dysplastic or worse) on or before 27 months of age; or if the dog is diagnosed by a veterinary ophthalmologist with Progressive Retinal Atrophy (PRA) or Central Progressive Retinal Atrophy (CPRA):

- 1) The dog may be returned to Breeder at Buyer's expense and AKC registration papers will be signed over to Breeder. Breeder (at his discretion) will either refund the entire purchase price of dog or replace the dog with a puppy of comparable breeding.
- 2) Buyer may keep the dog. In order to ensure that the dog is not bred, Buyer must have the dog neutered and AKC papers must be signed over to Breeder. Breeder will refund 50% of purchase price upon receipt of veterinary certificate providing proof of neutering.
- 3) If the dog has been bred prior to receiving a diagnosis of hip dysplasia or PRA, this guarantee is null and void.

****Buyer MUST have hip x-rays done by an experienced veterinarian who will do them without anesthesia or sedative. Spring Harbor Animal Hospital in Madison, WI (608-238-3461) does the hip x-rays for our dogs and is highly recommended.**

Also, Buyer has one week after purchase to have the puppy examined by a veterinarian of the Buyer's choosing. If the vet finds any defect which was present at the time of purchase, the puppy may be returned to the Breeder at the Buyer's expense. Breeder will refund the entire purchase price upon receipt of the puppy. The puppy must not have been injured and/or abused during the time after purchase.
